

SKIRTINGS, FINISHES, PAR, AWNINGS
AND FINISHED PRODUCTS

A PROUD MEMBER OF THE SWARTLAND FAMILY

PERFECTLY ENGINEERED

Wood is perfectly crafted by nature. Col has taken this one step further by engineering the timber to create products that are both sustainable and beautiful in your home.

Col products are laminated with waterproof adhesive to improve strength and stability. Finger-joints allow for longer lengths of clear timber, help to minimise lateral movement and ensure the timber retains its natural beauty over time.

SUSTAINABLE RESOURCE

Timber is a sustainable and renewable resource. The more wood we use, the more forests we grow. Not only does wood bring warmth into your home, it's also the best choice for the environment.

PINE

Our pine is sourced from local plantations that are FSC®-certified. FSC® certification ensures that products come from well-managed forests that provide environmental, social and economic benefits in line with our Forests For All Forever® vision of preserving the world's forests for future generations.

HARDWOOD

Our hardwood is sourced from sawmills around the world, where Governments in these regions have implemented strict sustainability policies and compulsory harvesting programmes. These policies protect the environment and forest ecosystems as well as the interests of local communities.

CUT A TREE – PLANT A TREE

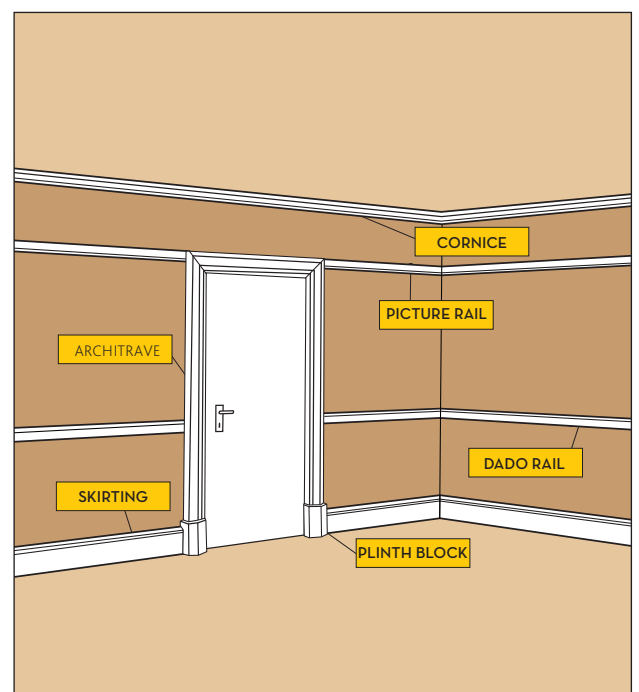

SKIRTINGS AND FINISHES

Create a sense of grandeur or simply add a decorative touch to your home with our wide selection of hardwood and pine skirting & finishes, architraves and plinth blocks.

Our profiles are available in 1.8m, 2.4m, 3m and 3,6m lengths in SA pine or imported hardwood.

We can also custom-make special profiles to suit your design. Ask your merchant to contact us with specific requirements.

A wide selection of the finest skirtings, offering both modern and traditional designs.

PAR TIMBER

The secret to durable PAR timber is in the drying.
Not all PAR timber available on the market is the same.

We kiln-dry our timber to an optimal moisture content, which keeps the wood in balance with atmospheric conditions, thereby stabilising the timber and minimising natural movement.

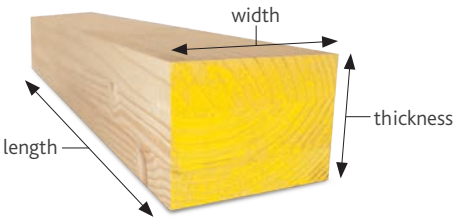

Selected PAR Timber is laminated to improve strength and stability, providing lengths of timber par excellence.

Available in SA pine or hardwood.

HARDWOOD & PINE								
PAR FINISHED SIZE – AFTER PLANING								
Thickness (mm)		Width (mm)						
12	x				* 69	94	144	
22	x	22	32	44	69	94	144	220

EXPAND-A-SHELF®

EXPAND-A-SHELF® is a DIY modular shelving system that allows you to create your own storage or display solution.

It's a versatile, flexible, easy-to-assemble solution, and is available in a variety of lengths and widths to suit your needs.

Sturdy uprights are constructed of quality raw pine. Components are pre-drilled and screws are supplied – all you need is a screwdriver.

Assembly instructions are included with your purchase.

FOR THE PERFECT FINISH

SWARTLAND

The Swartland story began back in 1951 in the small town of Moorreesburg – a few wheat fields north of Cape Town.

In the late 1980s, the philosophy of ‘continuous improvement’ was instilled in the business.

Today this desire to keep improving is an integral part of the Swartland culture, where traditional values such as hard work and pride live in harmony with new technology and ongoing innovation.

The results speak for themselves: our products are crafted to perfection, manufactured to last and backed by expert national sales and service teams.
